Earlier this morning, the Court granted Lev Parnas' request to allow production of certain materials to HPSCI in the Impeachment Inquiry, which we are doing. As the Government produces additional materials, we will seek similar judicial Orders. #LetLevSpeak

Re: United States v. Lev Parnas, et. al., Docket No. 18-cr-2101

Dear Judge O'Brien:

Tomorrow, the Government will be producing documents seized from Mr. Parnas's home on October 9, 2019, stamped USAO_00072349 through USAO_00073221, and the complete destruction of Parnas's phone #11, seized from Mr. Parnas upon his arrest on October 9, 2019, stamped USAO_00073229.

These materials fall within the scope of the September 10, 2019 letter request and October 10, 2019 subpoena of the United States House of Representatives' Permanent Select Committee on Intelligence (HPSCI), in connection with the presidential impeachment inquiry. Review of these materials is essential to the Committee's ability to undermine the strength of Mr. Parnas's potential testimony.

The Government does not object to Mr. Parnas producing USAO_00072449 through USAO_00073221 and USAO_00073339 to HPSCI, subject to receiving approval from the Court.

At present, we do not know whether we intend to produce the entirety of the materials, or a subset filtered for either privilege or relevance. If a subset, we will inform the Court and Government as to what we have actually produced.

Granted. Defendant Lev Parnas may produce the materials referenced herein to the United States House of Representatives Permanent Select Committee on Intelligence.
So ordered.
